

Ana Mead

okay let's go

raineyrave

Hi ana

First question, how are you?

Ana Mead

as well as can be expected, thanks for asking

raineyrave

No problem

We are kinda in chaos right now because housing just came out lol

But what can you tell us about the letters?

Ana Mead

haha i remember that

letters?

Angel

The letter campaign.

raineyrave

Some people have been receiving personal letters inviting them to join ps

And then are marched with mentors

jabber

but not people already working on ps

jshih

what do you know/can tell us about the letters?

Ana Mead

i know they sometimes sent letters out when i was a seeker

but not until pretty late in the initiation process

i had a mentor

most people do, formally or informally

Angel

What can you tell us about mentorship ?

jabber

how do we know who our mentors are?

Ana Mead

i think they're probably planning for so many recruits that any mentor will probably have a lot of mentees

but i don't know what their specific plan is

Frosh_VII

Can you be our mentor?
Pretty please?

raineyrave

Lool

Ana Mead

i wish i could

Angel

Also, why does P.S. want to keep communications about mentors and such a secret?

Ana Mead

i was given a serpent mentor before i even knew that was what i was

raineyrave

How accurate are the tests?

Frosh_VII

Did you have to fill out an application at any point?

raineyrave

For the sects I mean

Ana Mead

@Angel are they?

there was a paper application

the new one's online?

raineyrave

Informal one

Angel

Yes. There has been a specific request not to share the info, even with fellow squids.

Ana Mead

what kind of tests?

Angel

It's shady.

raineyrave

The marketbot quiz

Ana Mead

@Angel i think they want to see if people can keep secrets

raineyrave

And the quiz set up on the application
Also can you elaborate on the differences between the 3 sects?

jshih

Do you have any advice/tasks for us moving forward?

Angel

Why does P.S. have sects In the first place?

Frosh_VII

@Angel Differing ideologies

Ana Mead

Re: tests, i think they're more about exploration than assignment. But I the bots are new

raineyrave

I see

Ana Mead

Re: sect differences, the Reticulites would rather we didn't have them. It's more for the initiates

Angel

Oh, can you tell us about Jesse?

Ana Mead

based around both Initiates' "academic" or "disciplinary" interests and their philosophies about the parasite
every sect has really different beliefs about what the parasite actually is

Angel

Makes sense. The existence of sects does seem in conflict with some of the things P.S. has said.

Ana Mead

jesse's the founder

raineyrave

Gasp

Ana Mead

we don't know much about his life, but he entered the room in 1896

jshih

whoa

Frosh_VII

How do we retrieve objects?

Angel

Okay, now what about the second Jesse?

Ana Mead

he's the one who chose the 121 objects

raineyrave

Wow okay

Angel

There's no way Jesse #1 is still alive.

Ana Mead

@Frosh_VII i don't know, they've never been taken out before

raineyrave

Where are they?

Ana Mead

jesse disappeared in 1907

raineyrave

Yikes

Angel

Oh, big question.

Ana Mead

@raineyrave they've always been in the room. from what i can tell, at least some of them have been removed

Angel

Confirm that this isn't an Oweek ice breaker?

Ana Mead

i can confirm that this is definitely not an o week ice breaker
can you even imagine

raineyrave

Great

Yes we can

Ana Mead

why would admin take the time to do something this...elaborate?

raineyrave

Oh definitely

Frosh_VII

Maybe a first year stole their cookies

Ana Mead

when you're already enrolled?

raineyrave

You make a good point

Angel

I mean, there are some questionable things that P.S. did that you would have needed admin to do.

1. Orientation emails

Ana Mead

i hear yield is pretty high this year

raineyrave

Ana are we on the right track?

ed I and edii

Ana Mead

1. those were me

Frosh_VII

Why do we need the buzz to summon the parasite?

/ activate the room

Angel

2. How did P.S get my name and address?

Ana Mead

i got this job to try to smooth the way/get access to official communications channels

Angel

Also, what is the significance of the GNSE building with relation to PS?

Ana Mead

@Frosh_VII whenever the parasite appears they never know where it's going to be this year they don't know if it's coming back at all

so they need a whole lot of buzz to triangulate its location, or bring it to this world (there's dissensus)
