

Ana Mead

@everyone i've got something you need to know. can you get the others together here in 15 minutes?

Csquires

oh boy

Stephanie98

Here

Frosh_VII

Here

Lemme desp00kify

JSeeCan

actually im here

thought i had uninstalled discord on my computer

nwang

Here

Is this about the spider pit

hunterboerner

@nwang is that like a foam pit but with spiders?

nwang

Idk but Ana is making one apparently

Frosh_VII

Nah it's like brad Pitt but a spider

csquires

Surprise, that's the room. It's just a hole full of fucking spiders

nwang

Carter has solved the room

Ana Mead

i am relatively certain that there are no spiders in the room

nwang

Only relatively, o no

csquires

It's the "relatively" that counts

Frosh_VII

Twist, the Room *is* a spider

Ana Mead

wrong number of legs
gotta be eleven

Frosh_VII

*a mutant spider

Nwang

Oh so PS's experiments were to make spiders with eleven legs

Csquires

Theory: the Parasite is just a spider with eleven legs

Frosh_VII

It all makes sense now

Ana Mead

okay real talk tho
i haven't really told you why i left ps
but i think it's time
last year i discovered a corruption in the organization
something big, maybe even one of the reticulites
and no one believed me

nwang

What did you discover

Frosh_VII

We believe you

Ana Mead

i had reasons to suspect that one of the reticulites was trying to harm the parasite
but i couldn't prove it
and i still can't, not yet

Angel

Here

csquires

Is there any way to prove it?

nwang

Did the actions of a particular reticulite draw ur attention or ?

Ana Mead

there might be, but it'll take time

nwang

You said you thought it was time to tell us-why now? Do we have a role to play in this

Ana Mead

yes. in a few weeks you'll be here and you'll see the reticulites, and judge for yourself
i'm sure that one of them is not what they seem to be

Angel-Last

Are there reliable ways to distinguish among reticulites?

Frosh_VII

Why do they want to harm the parasite? There must be a rationale

Ana Mead

@Angel yes there are, there are small differences in their appearances

Ayalaa

can you break down which ret is which then?

Ana Mead

@Frosh_VII i don't know, but i think it's a Founderist

Frosh_VII

Is that pro-founder ideology or like founder racist?

Angel

No wonder no one believed you. Accusing a founderist.

Ana Mead

the former

hunterboerner

@Ana Mead does he have 6 fingers on his right hand?

Ana Mead

founderists are too committed to the idea of the parasite and the room as the creation/discovery of a
messianic figure, jesse

i've got something that might explain, and the note that ended my membership at PS

Frosh_VII

How civil was your exit from PS?(edited)

Ana Mead

@Frosh_VII i regret what happened, i miss my friends, but it was necessary

Frosh_VII

So no bad blood?

Ana Mead-Last Wednesday at 2:41 PM

i hope not, but i have no idea what they're thinking
especially the reticulites

Frosh_VII

Why are you helping us cooperate with PS then?

Ayalaa

did you ever send this? because it's just a draft.

Frosh_VII

Is it just one rogue member or is this systemic?

Ana Mead

@Frosh_VII because the parasite is coming and they're the only ones with access to it right now

@ayalaa yes

Frosh_VII

Did you go to other members before you came to us?

Ana Mead

@ayalaa i keep the draft as a reminder of what could have been

@Frosh_VII i hope it's just one rogue reticulite...

and yes, i still talk to some people from the old days. that's how i get all this stuff

i have to go

stay safe

nwang

Thanks Ana, u too

U know what they say

Safety first

U can never be too safe
